

## **Borough Councillor Report from Nigel Adcock, 11/08/26**

The big announcement recently was the decision on Local Government Reorganisation, with Gloucestershire moving towards a single unitary authority. This will obviously bring considerable change over the coming period, although there is still a lot of work to be done before the new arrangements are in place.

Being August, the Council has been a little quieter than in other months. Nigel did attend the recent Flood Risk Management Working Group and the CNL Nature Recovery Working Group.

Casework continues over the summer and, once again, Councillor Agg and I are grateful to residents and Parish Councils who continue to contact us with issues and situations affecting them and any updates or requests. We are always happy to look into matters where we can and raise them with the relevant authority or organisation.

Kind regards

Nigel
